Rev. C. V. Cowan and family, of Phoenix, were passengers on this morning's train en route to California to spend their vacation. Rev. Cowan will return to Phoenix again about September but he expects to remove to California in October to reside.

Miss Grace Olden, who has been the teacher at the Lynx Creek school during the past term, has finished her work for this year and will leave for her home at Newark, Ohio, tomorrow to spend the summer. She will return to this county again this fall to continue her school work.

A suit in foreclosure on a chattel mortgage of \$1842 was filed in the district court Saturday by the Bank of Arizona against Frank Barlage, Walter Hill and E. S. Stephens, and M. J. Farwell, the last two partners in the firm of E. W. Stephens and company. The mortgage was given on 120 head of cattle in 1901 for Barlage as security on his note for the amount named. The money was borrowed of E. W. Stephens and company, and his firm

and H. R. Wood have returned from a visit to the Hillside mine.

E. L. Patterson came down from Ash Fork last night.

H. Wm. Stevens, a resident of Morristown, is in Prescott today.

D. J. Rice and wife were passengers for San Diego this morning.

Fred Stephens is in town from the Verde valley to attend the meeting of the board of equalization.

Mrs. A. L. Morris left on this morning's train with the California excursionists for a visit to Los Angeles.

Thomas Garcia committed suicide last Sunday at Crowned King by shooting himself in the head with a Winchester rifle.

Chas. Ross came over from Jerome last evening and left for Los Angeles this morning.

A. V. Lewis came up from Tombstone this morning and is registered at the Burke.

Miss Jennie Ketcherside and niece came in from Los Angeles last night and left this morning for Camp Verde.

Ed H. Meek has returned from a business trip to Coconino county, in which was combined a pleasure trip to the Grand Canyon.

In mentioning Mr. and Mrs. Lloyd Henry of Iron King yesterday the Journal-Miner unfortunately printed the names as Mr. and Mrs. Lloyd Talbot.

Supervisor D. Sinclair came up this morning train from the south to attend the meeting of the board of equalization which convenes tomorrow. Mrs. Sinclair accompanied him.

Mr. and Mrs. Miller, who have been spending several months in Prescott, left this morning for the coast where they will spend the summer.

Frances B. Freeman was granted a divorce today from June S. Freeman on the grounds of cruelty and the defendant was ordered to pay alimony to the plaintiff.

An extra Pullman was attached to this morning's train to accommodate the California excursionists of which there was a large number, both from Prescott and Phoenix.

Dr. J. R. Walls came in last night from a camping and hunting trip of about three months' duration. He reports having had a glorious time and feels much better in health.

In the district court this morning a divorce was granted to Mrs. Geo. L. Cart from her husband, Geo. L. Cart, better known here as George Smith, for a number of years proprietor of the Headquarters saloon.

Ira Pulliam has put his automobile in charge of Mr. Whipple and he has gone back to his old home, the blacksmith shop. He can be found here at the intersection of the old street and the new one.

J. L. Munds came down from his large stock ranch in the northern part of the county last evening. He will be accompanied back to the ranch in a few days by Mrs. Munds and the children who will spend the summer with Mr. Munds on the ranch. He reports his stock looking fine.

M. R. Parker, the well known mining man of the Big Bug section is in town today. He reports everything running smoothly in his camp, and he is increasing the force of workmen right along.

C. H. Akers of Phoenix was a passenger on this morning's north bound train en route to Ash Fork with his mother and wife. The former was en route to Denver for a visit with her daughter Mrs. Miller and Mrs. C. H. Akers and son were en route to New York for a visit.

Horace J. Stephens, of Houghton, Michigan, publisher of the Copper Hand Book was a passenger on this morning's train en route to Los Angeles. He will return within a week or two to Prescott to investigate the mining resources of this county and particularly the copper fields, and will remain here for several days.

Geo. Rosenberg left for Los Angeles this morning having in charge Howard Legge, superintendent of the White Horse mine, who has been showing symptoms of violent insanity for several days. He will be placed under treatment of the best specialists in the city. The case is a very serious one and the patient is in a very bad way.

Clatsop Conger, of Kymo, Arizona, is in town on business. Mr. Conger is one of the old time and prosperous stock men and ranchers of this county, having been a resident of that part of the county for nearly thirty years. He says that in all the years that he has been in that section the stock has never been in better shape than this year.

Miss Brandon, sister of Walter C. Brandon, and Miss Isabel Bethune, sister of Mrs. Brandon, left this morning for Los Angeles, where the latter resides and where the former will visit for some time. Quite a number of their friends are expected to bid them good bye and to wish them a safe journey. As the young ladies are both quite popular in Prescott they will be missed in social circles here.

William J. Barrows, of Washington, D. C., representing the United States census office, is in town collecting special data for the census of 1900. The census office is engaged in securing financial statistics of every county in the United States and of every incorporated city of over 5000 population, and of every incorporated city that is considered a business center.

Sixty two men are employed in the work, and Mr. Barrows' territory is New Mexico and Arizona. He has completed the work in the southern part of Arizona.

The Coconino Sun says that the Woodmen and Workmen orders have paid the insurance on the policy held by the late John McCarthy at the time of his death. It has been reported that McCarthy is still alive but these orders have satisfied themselves of his death by the explosion of his gun in Miller's Canyon in June 1901. Most of it had but recently been taken out. This taken in connection with the fact that McCarthy was not discovered until four months after his death, making identification difficult raised the suspicion that he was still alive and that the body found was not that of McCarthy.

WILL IGNORE UNIONS.

Active opposition seems to be developing against trades unions in different parts of the country. A telegram from Kansas City says: "The Employers' association with a membership of nearly 800, including most of the business men in Kansas City, has started a movement to repeal all city laws that discriminate between union and independent labor. Among the laws that will be attacked are several that favor the product of union labor, excluding the obligations to the Employers' association, being that which forbids the letting by the city of printing contracts to any but unionized shops. It also will oppose the eight hour law now in force by the city administration as well as the ordinance requiring an applicant for engineers' license to be examined by a board composed entirely by union men."

A telegram of similar import comes from Sacramento, California, which says: "An announcement is made in the Bee today of the perfection of a secret organization known as the Merchants' Protective Alliance, formed along the lines of similar organizations in other cities. The alliance is made up of a large number of the business men of the city and it is proposed to include employers of labor. The alliance declares that it will not recognize labor unions nor enter into agreements of any kind with them nor will it discriminate against any employee because he belongs or does not belong to a labor union. Scott F. E. Smith, president of the large produce commission firm, is president; D. A. Lindley, wholesale grocer, vice president, and E. A. Meister, a county supervisor and member of a firm of carriage makers, secretary."

Judge Parker's democratic presidential boom is staggering under the hoodoo of Senator Carmack's advocacy.

President Roosevelt and Senator Henderson persistently refuse to fall out. That is cruelty to democratic editors.

The latest trick of the shrewish wife is to ask her late returning husband to produce a list of the names of a few members of the Servian society.

That distinguished deformer and word cobbler, Devory of New York City, is expected to make a Fourth of July address that will probably fail to appear in the school books of oratory of the better time coming.

Perry Heath was in the postoffice department before Roosevelt was elected vice president and Judge Tyler was placed at the head of the post-office department by Grant. But the New York World is blaming Roosevelt for what they have done.

Now let us have penny postage such as effete monarchies, with not one half our facilities, have long enjoyed. With thieves dismissed from the post-office department and fake publications excluded from the pound rate privileges, sealed letters at one cent each are possible.

The greatest sorrow the democracy now confronts is the fact that the democratic statesmen will fight at the drop of the hat, regardless of the importance or non-importance of the occasion, while the republicans will refuse to quarrel when their opinions diametrically differ.

Dr. Santos Fernandez of Cuba announces that mosquitoes bite human beings because they cannot produce heat. He went to the hospital and lured his left arm. The flesh was cut on the inside, just below the elbow. Then the artery was cut. The tying of it with threads prevented the escape of blood until the instrument was adjusted.

Mr. Christian's right arm had been prepared in a similar manner and the instrument was attached to her artery. Then one of the threads on Christian's artery was cut away, releasing the blood. A pint and a half, equal to a pound and a half, passed from his body into that of his wife. Christian never stirred and died the next day. His wife was taken to the hospital on Sunday, and it was found that the only hope of saving her life lay in the transfusion of blood.

Her husband cheerfully volunteered to give his own blood as much as was needed. He went to the hospital and lured his left arm. The flesh was cut on the inside, just below the elbow. Then the artery was cut. The tying of it with threads prevented the escape of blood until the instrument was adjusted.
